

Soft Closing System for Face Frame Cabinets with Wooden Drawer

Capacity chart

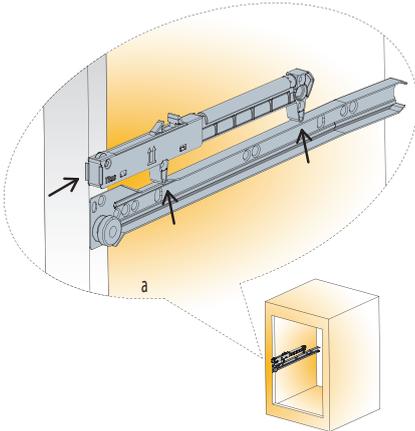

Mount 1 or 2 mechanisms depending on drawer weight and width

- Easy, intuitive mounting
- Universal application will fit most standard drawers
- Smooth soft closing action independent of drawer hardware
- Non handed design

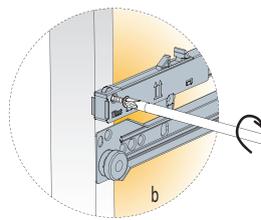

Mounting details

1.

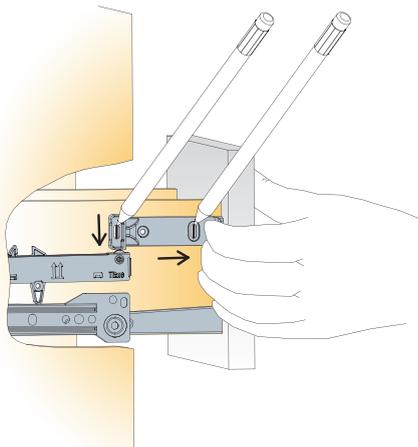

Position the mechanism on the top of a drawer side

2.

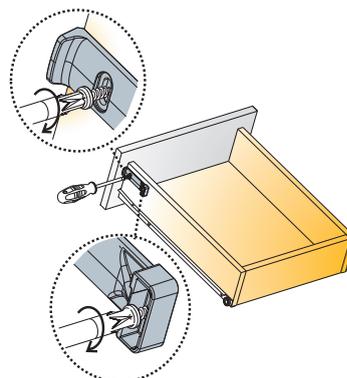

Screw the mechanism to the face frame

3.

Align the activator with the top of the mechanism and fix with two screws

4.

Fix with 2 (3) screws L=12mm
