Fixing Brackets

It is sometimes possible that the drawer's dimensions are not standard which could lead to the system moving everytime you close or open the drawer. These easy to install fixing brackets are the perfect solution to this problem. The bracket kit includes two fixing brackets and two screws to fix the **ORGANIZ-R** system to the bottom of the drawer.

Non-slip mat

Allows you to protect the bottom of the drawer while preventing any movement of the system in the drawer. The anthracite mat fits perfectly to the available colors of the **ORGANIZ-R**. It can also easily be cut to fit any specific dimensions to best suit the client's needs.
